OX2 acquires rights to 70 MW wind power project in Sweden from RWE Renewables Sweden

OX2 has agreed to acquire from RWE Renewables Sweden the rights to build the Riberget wind farm in the municipality of Ljusdal, Gävleborgs County, Sweden.

Under the agreement, OX2 will acquire 100 percent of the project. It comprises 12 turbines and has an estimated capacity of approximately 70 MW. The wind farm holds a legally binding permit and will be an addition to OX2's Swedish project development portfolio for late-stage onshore wind power.

– We are looking forward to working alongside landowners, residents, and the municipality. When OX2 establishes wind farms, we always strive to achieve a positive impact on the nearby area, including greater biodiversity”, says Hillevi Priscar, Country Manager Sweden, OX2.

About OX2 AB (publ)

OX2 develops and sells wind and solar farms. OX2 has taken a leading position in large-scale onshore wind power since 2004 and has developed and sold approximately 2.5 GW in Sweden, Finland, Norway and Poland for clients such as Allianz, Ardian and IKEA. Between 2014 and 2020, OX2 realised more onshore wind power in Europe than any other developer. By constantly increasing access to renewable energy, OX2 is promoting the transition towards a more sustainable future. OX2 has operations in Sweden, Finland, France, Italy, Lithuania, Norway, Poland, Romania and Spain with its headquarters in Stockholm, Sweden. Sales in 2020 was SEK 5,201 million with an EBIT of SEK 416 million. The OX2 share is listed on Nasdaq First North Premier Growth Market. For more information, please visit: www.ox2.com
