OX2 hands over first completed wind farm in Romania

OX2 has handed over the 99.2 MW Green Breeze wind farm in Romania to its owners, Nala Renewables. The wind farm is now fully operational and supplying renewable electricity to the grid.

Located mainly in the municipality of Cuca in Galati County, Green Breeze consists of 16 Vestas V162-6.2 MW turbines. The wind farm will supply a multinational corporate offtaker with renewable electricity under a long-term power purchase agreement (PPA).

The handover represents an important milestone for OX2, as Green Breeze is the company's first project in Romania to reach commercial operation. It also comes as OX2 marks five years of operations in the country.

"Green Breeze is a significant achievement for OX2 in Romania and a strong example of our integrated model, taking a renewable energy project from development through construction and to completion and handover. I am particularly proud of the OX2 team and our partners who have made this possible. Green Breeze is a strong foundation for what comes next as we continue to develop our growing Romanian pipeline," says Lăcrămioara Diaconu-Pințea, Country Manager, OX2 Romania.

OX2 has three wind projects in Romania, totaling around 300 MW, that are currently under construction or expected to enter construction shortly. An additional 1.2 GW of onshore wind, BESS and solar projects are at various stages of development.

About OX2 AB

OX2 is a renewable energy company accelerating the transition to a sustainable energy system. Through its integrated model as an independent power producer (IPP), OX2 develops, constructs, owns and manages renewable energy assets across onshore and offshore wind, solar and energy storage.

With a diversified portfolio of approximately 33 GW across development, construction, asset management and operations, OX2 combines entrepreneurial project development with long-term ownership and value creation. The company operates in five European markets and Australia, has approximately 500 employees, and is headquartered in Stockholm, Sweden.

OX2 is owned by EQT, one of the world's largest private equity investors. www.ox2.com
