

FOTOPUNKT: SÖDER OM GÅDAVALLEN

A landscape photograph featuring a large, white, three-bladed wind turbine as the central subject. The turbine is positioned in the middle ground, with its base partially hidden by a dense field of green, leafy bushes in the foreground. To the left of the main turbine, another smaller wind turbine is visible in the distance, partially obscured by more foliage. The background consists of a thick, dark green forest of tall evergreen trees that stretches across the horizon. The sky above is a vibrant blue, filled with numerous white, fluffy clouds of varying sizes. The overall scene suggests a rural or semi-rural area where renewable energy is being integrated with nature.

The map shows a topographic view of the Gådvallen area. Key locations labeled include Väsberg, Sundsvallen, Trälgaberg, Storö, Hosberg, Hårlinsberg, Gådvallen, Gussjö, and Gådvallen söder. A green arrow points to Gådvallen söder, which is marked with a red triangle. A scale bar at the bottom indicates distances from 0 to 10 km.

The block contains three logos. At the top is the 'Ecochain' logo, featuring a stylized 'E' in green and blue, followed by 'co' in blue, 'chain' in orange, and 'living planet solutions' in a smaller font below. Below this is the 'OX2' logo, which consists of a large, stylized 'O' and 'X' followed by a smaller '2'.
