

OX2 has handed over the Grajewo wind farm in Poland

OX2 has handed over the Grajewo wind farm in Poland to DIF Capital Partners. The wind farm comprises of 12 turbines with a total installed capacity of 41 MW.

The Grajewo wind farm will produce about 130 GWh of energy and assuming an average annual household consumption of about 5,000 kWh, it will be able to supply up to 26,000 households. Grajewo is the sixth wind farm to be handed over during the fourth quarter 2023.

- We are pleased to announce that we have handed over another wind farm in Poland. Poland is a market with a great potential for renewables and we are already planning our next projects. We appreciate the cooperation with DIF Capital Partners and look forward to manage the technical and financial operation of the wind farm, says Paul Stormoen, CEO, OX2.

OX2 will be responsible for the technical and commercial management of the wind farm under an agreement with DIF Capital Partners.

By the end of the third quarter OX2 was constructing a total of 1,335 MW in four different markets. During the fourth quarter five wind farms with a total capacity of 524 MW has been handed over to investors.
