

OX2 contracted to manage a total of 142 MW of onshore wind power in Poland

OX2 has signed an asset management agreement with ORLEN Group for three of their wind farms in Poland with a total capacity of 142 MW.

OX2 will provide technical, commercial and financial management to ensure optimal asset performance of the three wind farms Ujazd, which comprise of 15 turbines, Dobrzyca Wind Farm, with 19 turbines and Wielkopolska with 15 turbines. ORLEN Group acquired the three wind farms in 2023.

- We are happy to have been selected as partner to ORLEN Group for the asset management of these wind farms. As one of the largest managers of renewable assets in Europe we always give customers a tailored service and focus on optimizing the value of the assets. We look forward to a long-term collaboration with ORLEN Group, says Lars Bryngelsson, responsible for Technical and Commercial Management, OX2.

OX2 manages more than 5 GW of assets consisting of more than 1,000 wind turbines plus several solar and battery energy storage systems in Poland, Sweden, Finland, Lithuania, Italy and Australia.
