

OX2 hands over its first wind farm in Poland

OX2 has handed over the 21 MW Żary wind farm in Poland, to MEAG Munich Ergo Asset Management GmbH (MEAG). The project is OX2's first wind project in Poland to be handed over.

"The project has been delivered during the pandemic which is causing supply chain and workforce disruptions besides slowing down administrative procedures. Our efforts to mitigate the pandemic's impact on the working environment at the site have been efficient and kept people safe. Żary is our first project handed over in Poland and a milestone achievement", says Paul Stormoen, CEO, OX2.

The Żary wind farm consists of a total of seven turbines in southwest Poland. OX2 has developed the project, constructed the wind farm and obtained the operational notification for the investment. The wind farm is expected to produce 66 GWh per year, which corresponds to the electricity consumption of about 13,000 households.

Information about the wind farm project:

- 7 x Nordex N117/3000 wind turbines with a tip height of 121.5 meters
- Major subcontractors: Nordex (turbines delivery and assembly), ONDE (foundations, roads, grid connection)

About OX2 AB (publ)

About OX2 AB (publ)

OX2 develops and sells wind farms and solar parks. Since being founded in 2004, OX2 has taken a leading position in the area of large-scale onshore wind power, having developed and sold around 2.5 GW in Sweden, Finland, Norway and Poland and to customers such as Allianz, Ardian and IKEA. During the period 2014-2020, OX2 established more onshore wind power in Europe than any other developer. By constantly increasing the availability of renewable energy, OX2 is driving the transition to a more sustainable future. Based in Stockholm, Sweden, OX2 runs operations in Sweden, Finland, France, Italy, Lithuania, Norway, Poland, Romania, and Spain. Net sales in 2020 amounted to SEK 5,201 million, with EBIT of SEK 416 million. OX2 is listed on the Nasdaq First North Premier Growth Market. For more information, please visit www.ox2.com
